

TABLE OF CONTENTS

- I. Introduction
- II. Types of Bending
- III. Getting Started – What you need to know.
 - A. Glossary of Important bending terms
 - B. How length and diameter can affect difficulty
 - C. Other cues for determining difficulty
- IV. Different Bending Materials
 - A. Nails
 - B. Bolts
 - C. Differences between fastener grades
 - D. IronMind Enterprises Inc.'s Stock
 - E. Fat Bastard Barbell Company's Stock
 - F. HRS and CRS Bending Stock
- V. Protecting your hands from Injury
- VI. Correct Wrapping Technique
- VII. The Techniques
 - A. Wrist postures and Actions
 - B. Reverse Technique
 - C. Double Underhand Technique
 - D. Double Overhand Technique
- VIII. Other Bending Styles
 - A. Slim Style
 - B. Heslep Style
 - C. Vertical Style
 - D. Brookfield Style
- IX. Condition Routine for the Beginning Bender
 - A. Consult Your Physician
 - B. Modify Caloric Intake
 - C. Modify Water Intake
 - D. Increase Rest
 - E. Conditioning Routine
- X. Exercise Index for Beginners and Experienced Benders
 - A. Strengthening Wrist Flexion
 - B. Strengthening Wrist Extension
 - C. Strengthening Radial Deviation
 - D. Strengthening Ulnar Deviation
 - E. Strengthening Rotation: Pronation/Supination
- XI. Taking a Closer Look: Training Individual Portions of Bending for Success
 - A. The Chest Crush
 - B. Training for Flexibility
 - C. Cheat Starts
- XII. Nail Purchasing Resources
- XIII. Online Bending and Grip Resources and Other Sites Referenced in this Piece
- XIV. About the Author
